Create a bot in which you have to name the student and his/her marks in three subject display complete information of student in a message box.

→ First of all we go to sequence and go to the assign and drag it.

→ Then set the variable with the help of control + K in assign And give the name and marks in integer

→ Then we also write message box which tell us about marks with the help of to string.

Outputs

student

Assign

roll = "2022a1r169"

Assign

name = "Ananya"

Assign

math = 85

Assign

physics = 78

Assign

chemistry = 88

Message Box

"Roll no. : "+roll+vbCrLf+"Name : "+name+vbCrLf+"M...

■ Message Box   ↗

Roll no. : 2022a1r169
